MEMORANDUM

DATE: January 18, 2018

TO: All Offenders

FROM: 
Alana C. Boyles, Director
Division of Adult Institutions

SUBJECT: Food Visiting Suspension

Over recent months, we have seen a continued increase in drug activity within our facilities. As a result, I am suspending the privilege of offender food visiting as outlined in IS 13-3.1 Offender Visitation effective Monday, January 22, 2018. Please ensure you have notified your family and friends of this change. The potential to reinstate this privilege will be considered only after we have seen a significant decrease of illicit and illegal drug use within our facilities.

I am aware this is a significant change, but necessary for the safety and security of our staff and offenders. Your cooperation is appreciated.
